PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data cleaning, analysis, and reporting. Comfortable working with spreadsheets, databases, and dashboarding tools to turn raw data into clear, decision-ready insights. Has also built and maintained web applications, which gives a practical understanding of where data comes from and how it moves through real systems. Looking to bring strong analytical thinking and attention to detail to a team that relies on data for decisions.

CORE SKILLS

Data Analysis & Visualization

- Power BI-Builds interactive dashboards and data models that turn raw numbers into visuals decision-makers can actually use, making trends and patterns easy to spot at a glance.
- Python for data work-Uses Pandas and NumPy to clean and organize datasets, handling missing or inconsistent values before analysis. Uses Matplotlib to create visual charts that highlight patterns, and Openpyxl to work with and automate tasks in Excel files directly through code.
- Advanced Excel-Comfortable using pivot tables to summarize large datasets quickly, VLOOKUP and XLOOKUP to cross-reference information across sheets, and conditional formatting to highlight important trends or outliers visually.
- SQL-Writes queries to pull specific information from databases, joins related tables to combine data from multiple sources, and cleans data directly at the source rather than after it's been exported.

RELEVANT PROJECT WORK

Data Analysis & Dashboard Project

- Cleaned and organized a real dataset using Python

- Explored the data to identify patterns and trends
- Built an interactive Power BI dashboard to present findings clearly

EDUCATION

Diploma in Computer Science — NIBS Technical College | Sept 2024 – Aug 2026

Kenya Certificate of Secondary Education (KCSE) — Thungururu Secondary School | Jan 2017 – Apr 2021

Kenya Certificate of Primary Education (KCPE) — Jadamy Elite Academy

ADDITIONAL INFORMATION

- Languages: English (fluent), Swahili (fluent)
- Core Strengths: Problem-solving, attention to detail, adaptability, time management, continuous learning
- Interests: Exploring new technologies, nature walks, reading
